7 day incidence per 100'000	Change in incidence compared to previous week			
	< -10%	-10% bis +10%	+10% bis +20%	>+20%
>75	Orange	Red	Red	(Dark) Red
50-75	Yellow	Orange	Red	Red
25-50	Green	Yellow	Orange	Red
10-25	Green	Green	Yellow	Orange
< 10	Green	Green	Green	Green

Conversion table change - reproductive number	
Diff	Re
30%	1.20
20%	1.13
15%	1.10
10%	1.07
0%	1.00
-10%	0.93
-14%	0.90
-20%	0.86
-28%	0.80
-30%	0.78

Generation time assumption	
4.8	days

General comments

For all all classes, testing criteria in Switzerland were more restrictive In spring 2020 than later in the pandemic. In 0 to 9 year olds, criteria were more restrictive than in the other age classes until spring 2021.
